**UNIT – I**

I. Read the following passage and answer the questions set on it : **(5×1=5)**

'Health is wealth' is a well known saying. Without good health, life is a burden. When we fall ill, we are unhappy. We cannot work or play. Germs cause illness. These are very small living things. They live on dirt and grow in darkness. They get into our body by air, water, food or cuts in the skin and make us ill. Dirt and darkness are the enemies of good health. They breed germs. Sunlight and cleanliness destroy them. So we must keep our body clean and do exercise daily to keep ourselves healthy. Bad habits like smoking and drinking alcohol must be avoided.

- i) What makes us unhappy ?
- ii) What are germs ?
- iii) How do germs enter our body ?
- iv) Germs live on dirt and grow in darkness – True/False
- v) What should we do to keep good health ?

- I. Read the following passage and answer the questions that follow.

Leadership does not exist without fellowship. A leader is to be accepted by the group which the farmer is supposed to lead. To gain acceptability the leader should cause an emotive impact on the group members.

The characters exhibited by the leaders make them dear to their followers. A leader is one who effectively inspires employees to achieve worthwhile things. What character of leader motivates the followers? It is neither pomp nor show nor flattery. Pomp and show creates a sense of awe and the leader is defied rather than emulated. Flattery is unrealistic and cannot serve as a long-term motivational tool. A leader's style should be one that can be emulated by all irrespective of cadre, class and calibre. Simplicity in one's day today conduct is the only thing that can be adopted by all. When the leader is simple, he is counted as one belonging to the group of which he is the leader. That's enough to motivate people. Motivation is the innate quality that enables an individual or group, to contribute unlimitedly with limited means. It is the proud prerogative of enlightened human beings.

A Leader needs to assume the role of a guide: quintessential to fulfilling the role is knowledge and ability. Technical and administrative knowledge of the guide in balanced quantity and of the right kind are essential. He has to master the human-relations aspect of administration in all detail. And when the leader is good at this his guidance is sought and accepted, and then he fulfils the role of a guide. The leader is a within and outside the organization. The leader shapes people and moulds character. To achieve this leader should maintain equanimity.

P.T.O.

Equanimity is keeping oneself poised and balanced at all times. A leader is simply great, if he can mould his followers with this frame of mind.

- 1) Who is a leader ?
- 2) What should a leader do to gain acceptability ?
- 3) What motivates the followers to follow the leader ?
- 4) How does the leader mould the character of people ?
- 5) A leader needs to assume the role of a guide. True/False.

I. Read the following passage carefully and answer the questions given below :

The remarkable development in space technology and its application during the last three decades have firmly established its immense potential for the development of the human society as a whole. Space platforms are now being extensively used for reaching global communication even in remote rural areas for world-wide monitoring of weather and for conservation, monitoring and management of natural resources, thus significantly contributing to the development of human society. With the rapid progress achieved, the remote sensing application in India now covers diverse fields such as the agricultural crop acreage and yield estimation, drought warning and assessment, flood control and damage assessment, land use/land cover mapping, waste land management, urban development, mineral prospecting, forest survey, etc. thus covering almost all the facets of national development. Space technology has also revolutionised communication, especially long distance telecommunication, nationwide TV and radio broadcasting.
